

Top 7 Questions

You Should Ask Your Revegetation Provider

Have you been tasked with finding a revegetation solution?

With so many providers available, it can be difficult choosing the right one. You may have had some bad experiences in the past or this could be your first time but don't worry we have compiled 7 important questions you should be asking your revegetation provider to ensure you choose the right application:

1. What is in the application I am being quoted?

2. Where has this application been used with success before?

3. What needs to happen to ensure it works?

4. What sort of maintenance does it need?

5. What are your qualifications/experience?

6. How long will the works take?

7. When will I see growth?

The main things to look for in a provider are:

- ✓ A Proven Track Record
- ✓ Knowledge & Support
- ✓ Open Communication

This is one of the most important things to look for in a provider. Find someone who listens and provides a solution that takes your site requirements into consideration while keeping you informed throughout the entire process so you can feel confident making the right decisions for your site.
